REPORT OF HEALTH OFFICER

In the interest of economy the Selectmen again during the year 1944 assumed the duties of the health officer.

Monthly samples of the Town Water were sent to the Laboratory of Hygiene, Concord, N. H. Each test resulted in a very satisfactory report, except in some instances, test showed traces of iron.

This winter the Town experienced a somewhat severe epidemic of scarlet fever. Communicable Disease cards were placed on each residence where this disease was reported. Quarantine regulations were rigidly enforced. With the very efficient and tireless work of our two reputable doctors, together with the excellent cooperation of the families who were afflicted, we are pleased to report at the time of making this report, that the epidemic is under control.

We have given preferred attention to every complaint. Unsanitary conditions have been remedied. We wish to thank the citizens of Epping for their splendid support.

JERRY L. THAYER,

Chairman Board Selectmen.

ANOTHER ENEMY TO CONQUER

Here is a home front fight that everyone can get into. Last year in this State 558 brush and forest fires burned over 4,648 acres of land, of which 2,788 acres were valuable timber and young growth. With available manpower the lowest of any year since the war started, you can help to keep this loss down by preventing these fires from starting.

Keen in mind these simple rules:

1. Always get a permit from your forest fire warden before starting any fires in the open. Burning under certain conditions is permitted.
2. Never burn unless you have enough help to control your fire—a permit does not excuse you of negligence in case it gets away.
3. Always report any uncontrolled fire promptly to your forest fire warden. Minutes lost are acres lost.
4. Be especially careful with cigarettes, matches and pipes. Smokers caused most of our fires.
5. Never leave a fire unless it is dead out. You can't feel safe while there is a spark left.
